WORK EXPERIENCE

Software Engineer

iCrats Technologies   *Kochi, India*
06/2021 - 09/2022

Projects:

- **Door-Step-Banking:** A mobile application developed primarily for employees of banking or non-banking financial institutions to collect money from customers on their doorstep for loans and deposit services. Technology used: **React Native**
  - Developed the entire UI for mobile application, which included a QR code scanner, navigation stacks, drawer navigation and so on.
  - Started the project with Expo and later ejected to the bare workflow.

- **CKYC Management System:** A platform to manage customer KYC. Developed for use by financial institutions to verify customer KYC. Technology used: **Angular**
  - Created a dashboard for displaying total, approved, pending, and rejected KYC.
  - Implemented UI for uploading customer identification documents.

- **Semslate:** A web application for managing customer data for an eye hospital. Application stores the entire history of patients, treatments, and medications. Technology used: **Angular, Node.js, MySQL**
  - Involved in creating UI and worked on the server side.
  - Created tables and stored procedures in the database.

- **Html to PDF converter:** A server-side application for converting html data to pdf. Technology used: **Node.js**
  - Created the entire application that handles REST APIs.

IoT Intern

Techvantage Systems   *Thiruvananthapuram, India*
08/2016 - 12/2016
- Worked as an IoT Intern in the Home Automation project.

IoT Project Intern

IIITMK   *Thiruvananthapuram, India*
11/2015 - 08/2016
- Developed an IoT based Embedded System called 'Link Smart'.
- Developed the PCB layout of the system consisting of NRF modules, PIC microcontrollers and different sensors using Eagle.

EDUCATION

Master of Technology (MTech)

Mahatma Gandhi University
Kottayam, India

07/2014 - 09/2016
- VLSI & Embedded Systems

SKILLS

- HTML
- CSS
- TypeScript
- React Native
- React
- Angular
- Node.js
- REST APIs
- MySQL
- Git
- Jest
- AWS
- Docker

CERTIFICATES

MEAN Stack Web Development
(02/2021 - 04/2021)
Luminar Technolab, Kochi

Testing React with Jest and React Testing Library (RTL)
May 2023
Udemy

AWS Cloud Technical Essentials
May 2023
Coursera

LANGUAGES SPOKEN

English
Full Professional Proficiency

Malayalam
Native or Bilingual Proficiency

INTERESTS

- Reading historical fiction.
- Travelling to high altitudes.
